REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The rejection over Hong et al is withdrawn in view of the certified translation of the Korean priority document.

The provisional obviousness-type double patenting rejection over the copending Application No. 10/702,487 (Pub. No. 2004/0105040) has been considered. However, the instant application is allowed since the only rejection remaining in the instant application is the provisional obviousness-type double patenting rejection. See M.P.E.P. 804. It is noted that a provisional obviousness-type double patenting rejection over the instant application will be applied in the copending Application No. 10/702,487.

Claims 1 and 11 are allowed over the prior art of record because none of the prior art discloses or suggests a method and a liquid crystal display device with a touch panel having the *combination* of "a digitizer detecting a position of a stylus pen and located below the liquid crystal display device", "a passivation layer on an upper surface of the liquid crystal display device" and "a top case securing both the liquid crystal display device and the passivation layer". The remaining claims are also allowed since they depend on the allowed claims 1 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
